SUBJECT: University of Nebraska-Lincoln (UNL) Behlen Renovation for Nanotechnology/Atomic, Molecular, and Optical Physics

RECOMMENDED ACTION: Approve a \$770,000 increase in the project budget for the University of Nebraska-Lincoln (UNL) Behlen Renovation for Nanotechnology/Atomic, Molecular, and Optical Physics.

PREVIOUS ACTION: October 17, 2003 – The Board approved the design development report for the UNL Behlen Renovation for Nanotechnology/Atomic, Molecular, and Optical Physics.
 June 7, 2003 - The Board approved the program statement for the UNL Behlen Renovation for Nanotechnology/Atomic, Molecular, and Optical Physics.

EXPLANATION: The project as originally programmed would remodel 5,414 gross square feet of existing space into laboratory and office spaces. The project also includes adding a new emergency exit stairway from the sub-basement laboratory. The stairway will be sufficiently large to provide equipment access to the basement spaces. Davis Design of Lincoln was selected as the Project Architect. The contractor for the project is Hawkins Construction and construction is underway.

Recent successes in recruiting and research at UNL dictates further improvements necessary to accommodate the research projects of a newly-hired professor. Approval of this item will allow additional improvements including the mechanical system, electrical system, clean room finishes, and radiation walls. The construction work to accomplish these improvements will be competitively procured in accordance with Board policy. The improvements envisioned and additional facilities investment would not be “sunk costs” should UNL’s priority deferred maintenance project encompassing Behlen be approved. Approval of this item will increase the project budget to \$1,370,000.
